💼 Projects

Redesign of Gærum Form og Trivsel

Redesign of Gærum Form og Trivsel's website in relation to my graphics design course.

FlipNow

Real-time turn game using SignalR og React.js, where you can compete against friends.

CitizenTaxi

Apprentice test project as online taxabooking system to Region Northjutland's citizens, who bear rights to recieve "flexsygehustaxa".

DCH

Website for Dansk Divile Hundeføreforening and their employees to manage their internal reports and various materials.

🤝 Volunteering

PixelSpark

At the PixelSpark server I managed documents, accepted ban appeals, was part of the hiring process and moderated the server's members. In addition, I was also the server's Social Media Manager, where I managed Facebook and Twitter accounts and published monthly newsletters about the various updates that have occurred during the month.
2016 - 2017 and 2019 - 2020

🎵 Hobbies

Gaming

I play fast-paced team-building games, that requires planning, adaptation and team-building, where everyone strengths each other.

Music production

Music production helps me strengthen my creativity, where I also can experiment with sounds.

Video editing

Occasionally I edit compilation videos from clips of previous gaming sessions.
